We are informed, that the Mercury Sloop ſailed a few Days ſince with ſome important Diſpatches to Lord Clive at Bengal. It is ſaid, that amongſt theſe Diſpatches there is an Order for Lord Clive's Staying ſome Time longer in India, in order to eſtabliſh the Company's Affairs upon a ſolid Footing. Alſo, that there is a Confirmation of Lord Clive's Suſpenſion; firſt, of certain Members of the Council at Bengal, for having endeavoured to extort 200,000 l. for themſelves from the Nabob, excluſive of 300,000 l. he had before paid them on the Company's Account; and, ſecondly a Confirmation of the Suſpenſion of four Captains of the Company's Ships, for having ſent by certain Ships, large Quantities of military Stores for the Madeſas, where when theſe Captains arrived, they took theſe Stores on board their own Ships, and carried them to India, and there ſold them to the Enemies of Great-Britain. And we are further informed, that in theſe Diſpatches is an Anſwer to a certain Nabob, who lately ſent the Directors a handſome Letter in the Malabar Language, incloſed in a ſuperb Gold Box, finely ornamented, requeſting their Protection, and that he might be permitted to build a Fort for his Defence, within the Company's Territories, in caſe he ſhould hereafter be attacked by the Great Mogul, or by any other Powers, for his Adherence to the Intereſt of Great-Britain.

Some Accounts, received in Holland from the Eaſt-Indies, inform, that Summeraw, with all his Artillery, and great Part of his Treaſure, had fallen into the Hands of Lord Clive, though by what Means is not mentioned.

We are informed, that more than double the Value of the different Manufactures of Great-Britain, uſually ſhipped off for the Eaſt-Indies, is now preparing to be exported to the Company's Settlements, than has ever been known ſince their Eſtabliſhment, attributed chiefly to the late Succeſſes in that Part of the World.

It is reported, that the famous Monſieur Lally was ſix Months in England, after the Surrender of Pondicherry to the Engliſh. He had ſeveral Times an Opportunity of making his Eſcape, which, as he was conſcious of having diſcharged his Duty, he refuſed to attempt.

We hear the Britiſh Exports to Minorca are at preſent more than triple what they have been at any Time for the laſt ſeven Years.

June 4. Before a great Man lately reſigned, it is ſaid he acknowledged his Readineſs on all Occaſions to ſerve the Publick, and the beſt of Princes; but greatly lamented the Want of the Aſſiſtance in the Adminiſtration of that *only Man* who was capable of bringing the Nation into its former Vigour and Strength; and concluded, that if *he* came in, he himſelf would chearfully ſerve under him.

A certain noble Lord lately refuſed one of the higheſt Offices of the State, unleſs he was allowed to have the Nomination of the ſeveral Offices in his Department, which was not agreed to.

Yeſterday at Noon Commodore Palliſer ſet out for Portſmouth, there to embark for Newfoundland, in order to take upon him the Command of his Majeſty's Ships on that Station. It is reported, that the Reaſon of his not embarking ſooner in the Seaſon, was owing to ſome Advices hourly expected from thence, and which have been received.

We hear that his Majeſty's Statue is to be affixed in the Center of Berkeley-ſquare.

An Engliſh Veſſel with Palatine Paſſengers, bound from Lubec to the American Settlements, is arrived at Cowes.

Letters from Bohemia of the 24th ult. ſay, that the Auſtrian Camp at Collen, in that Kingdom, for which the Troops are aſſembled, will conſiſt of 60,000 Men.

Some Letters from Germany adviſe, that his Pruſſian Majeſty holds frequent Conferences with his General Officers, and is going to make a general Review of his Troops, which makes it conjectured that that Prince is meditating ſome great Deſign.

A Correſpondent at Genoa writes, that, according to all Appearance, there will ſoon be ſome bloody Work in Corſica.

June 6. *A new Treaty of Commerce and Alliance is on the Point of being concluded between our Court and that of Peterſburgh.*

They write from Portugal, that ſeveral Spaniſh Troops had lately made their Appearance on their Frontiers, which occaſioned various Conjectures.

Letters from Hamburgh of the 18th of laſt Month adviſe, that General Paoli's Troops have lately had ſeveral Skirmiſhes with thoſe of the Marquis de Marbeuf's, in which the former hitherto had the better; that the Genoeſe were preparing with great Diligence to ſend Reinforcements of Men and Ammunition to Corſica, and that the Fate of that Iſland ſeemed now to be at a Criſis.

The bill to continue an act to allow the exportation of ſalt from Europe to Quebec.

And alſo to ſeveral other publick and private bills.

After which his Majeſty put an End to the preſent Seſſions, with the following moſt gracious Speech to both Houſes.

My Lords, and Gentlemen,

IT is with the utmoſt Satisfaction, that I have obſerved the Wiſdom and Moderation which have uniformly guided you through the many important Deliberations, in which you have been engaged during the Courſe of this long and intereſting Seſſion of Parliament. I perſuade myſelf, that the moſt ſalutary Effects muſt be the natural Reſult of Deliberations conducted upon ſuch Principles.

Gentlemen of the Houſe of Commons,

I thank you for the Supplies which you have ſo chearfully given for the ſeveral Eſtabliſhments, and for the Support of public Credit: And you may reſt aſſured, that no Oeconomy will be wanting, to render them effectual for the Purpoſes for which they were granted.

My Lords, and Gentlemen,

The preſent general Diſpoſition of all the Powers of Europe ſeems to indicate a Continuance of Peace: And it is my earneſt Deſire to preſerve the general Tranquillity, by fulfilling, on my Part, all the Engagements I am under by Treaties. And on this Foundation, I may reaſonably hope and expect the ſame ſtrict Performance of thoſe Engagements, which other Powers are under to my Crown.

The many Regulations which you have made for extending and promoting the Trade and Manufactures of Great-Britain, and for ſettling the mutual Intercourſe of my Kingdoms and Plantations, in ſuch a Manner, as to provide for the Improvement of the Colonies, on a Plan of due Subordination to the commercial Intereſts of the Mother-Country, are the ſtrongeſt Proofs of your equitable and comprehenſive Regard to the Welfare of all my Dominions; an Object truly worthy of a Britiſh Parliament.

It ſhall be my Endeavour, that ſuch Care be taken, as may tend to ſecure and improve the Advantages which may be expected from ſuch wiſe and ſalutary Proviſions.

I have nothing further to recommend to you, than that you will exert your beſt Endeavours in your reſpective Counties, to enforce the Execution of the Laws, and to promote good Manners and good Order among my People; whoſe true and laſting Happineſs ſhall be my conſtant Care, and upon whoſe Affections I ſhall always firmly rely.

Then the Lord Chancellor, by his Majeſty's Command, ſaid,

My Lords, and Gentlemen,

IT is his Majeſty's Royal Will and Pleaſure, That this Parliament be prorogued to Saturday *the Twelfth Day of* July *next, to be then here held; and this Parliament is accordingly prorogued to* Saturday *the Twelfth Day of* July *next.*

Extract from the Votes of the British House of Commons.

Martii, 3 Die Junii, 1766.

A Motion was made, and the Question being put, That an humble Address be presented to his Majesty, to express the earnest Wish and Desire of this House, that his Majesty would be graciously pleased to suspend any Prorogation of his Parliament, until positive Assurances shall be received, from the several Governors of the respective Provinces in North-America, that the People are returned to a due Sense of their Duty and Obedience to the Laws. That this House is the more earnest in their pressing Solicitations to his Majesty, to grant this their humble Request, as they apprehend many of the fatal Consequences of the *rebellious* Disposition of his Majesty's Subjects in those Parts, might have been prevented, if the Parliament had been called last Year, as soon as the Accounts of the disorderly and tumultuous Conduct of the Americans came to the Knowledge of his Majesty's Ministers. To assure his Majesty, that this House is determined to support the legal Authority of the Crown, and the just Rights of the British Legislature over all Parts of his Majesty's Dominions. And, when permitted, to offer their Advice, to guard the Honour and Dignity of his Crown and Government from any Insult whatsoever.

It passed in the Negative.

LONDON,

June 7. This morning arrived a Mail from Holland; by which we have the following Advices:

Extract of a Letter from Paris, dated May 30.

"We have an Account from Madrid, that the King of Spain, for Reasons of State, has banished the Marquis de la Ensenada, who is not to be permitted to reside within Thirty Leagues of the Capital.

The following are the Circumstances of a Revolution which happened the 22d of May, 1765, in the City of Quito, the Capital of the Government of Peru.

A Lady wrote that Day's Billet to Don Juan Diare Henexa, Director of the Custom-House newly established, advising him to run away immediately, if he would avoid a cruel Death. Henexa took the Advice, and with the Auditor and President of the Royal Court, flew for Refuge into the Convent of St. Dominick; which they did just in time; for that same Night a numerous Body of People assembled and set Fire to the Custom-House, thinking the Director was still there. Threescore Men perished in the Tumult, and the Fire consumed, amongst other Things, 14,000 double Spanish Pistoles in Specie. There was Insurrections in every Quarter of the City; and what is very astonishing, and seems almost incredible, is, that all the Inhabitants of that vast Country, composed of 1800 Cities, Towns and Villages, hung out the Standard of Rebellion on the same Day, and at the same Hour.

The Bishop of Quito, seeing with Horror a general and premeditated Rebellion, proposed a Capitulation, which they would not accept but on the following Conditions:

I. That all the European Foreigners should be obliged to leave the City in Eight Days.

II. That the Artillery, Ammunition and Arms, which were in the King's Magazines, should be delivered to the Rebels without Delay.

III. That an Exemption from all kinds of Taxes or Tributes should be made the fundamental Law.

IV. That all the Slaves should be made free by a general Indulto. And,

V. That the Criminals, confined in the Prisons, should be set at Liberty.

In Consequence of the first Article, all the Foreigners, who were in Quito, quitted the City, disguising themselves like Priests and Monks, leaving their Effects behind them.

It was added, that the Conspirators, to shake off the Spanish Yoke entirely, insisted on electing a King in the Person of the Count d'Herba Florida, Vice-Roy, who, notwithstanding his Protestations, *of chusing rather to die, than to take a Crown from his lawful Sovereign*, was forced with a Knife at his Throat, to let them proclaim him King of Quito.

The Bishop of Quito having attempted to escape, was closely confined.

This news was brought to the Vice-Roy of Santa-Fe, by a Courier dispatched Express from Santa-Martha, the 3d of October, 1765. And Advice has since been received, that the Vice-Roy of Santa-Fe, finding himself not in Safety, at first retired into a Convent, and afterwards made off towards Honda, having abandoned all the Affairs of his Government."

June 11. *It was Yesterday reported, that some great Changes were in Agitation; and that Mr. Pitt was, or very soon would be, sent for.*

It has been likewise said, that there is a Design of giving Lord Tyrawley a Pension; and the Coldstream Regiment, which his Lordship now has, to General Conway, in order to make an Opening for Mr. Pitt.—But others say, that Mr. Pitt will never come in with the present Ministry, on Account of some recent Affairs.

It is said that the Earl of Rochford is only come over on his own private Affairs, and after some Stay, will return in his former Character to the Court of Madrid.

It is said, that certain Dispositions of the French in the Mediterranean will occasion our Fleet to be considerably augmented on that Station.

It is said that there will be, by the Time of Capt. Pallisser's Arrival at Newfoundland, twenty English Men of War and armed Cutters upon the Coast.

It is reported, that Robert Gunning, Esq; Resident at Copenhagen, will soon be created a Baronet of Great-Britain, previous to his being invested with a superior publick Character at the Danish Court.

They write from Batavia, in Letters of the 22d of October 1765, that the Eruption of the Vulcano of Banda-Neyra has been attended with the most melancholy Consequences: the Mountain, according to the last Advices received, being now on Fire in all Parts, and launching out its sulphurious Flames and Odours to such a Distance, that the Inhabitants, unable any longer to endure it, have found themselves under the Necessity of retiring.

June 13. *The Report at the West End of the Town on Wednesday Night was, that more Changes were expected in the Law, and in the Ministry.*

It is reported, at the West End of the Town, that his Royal Highness the Duke of York, will soon be appointed Lord High Admiral of Great-Britain and Ireland.

It is also reported, that his Royal Highness the Duke of Gloucester, will be appointed Captain-General of his Majesty's Land-Forces.

It is now said, that no British Ambassador is to go to Madrid, till the internal Troubles of that Kingdom are entirely appeased.

We hear that his Excellency Prince Mazarine, the Spanish Ambassador, will set out in a few Days for Madrid on his own private Affairs.

We hear the Honourable Edward Hay, Esq; is soon coming Home from Portugal, and will be succeeded by a Person of distinguished Rank as Envoy Extraordinary at Lisbon.

On Wednesday Evening there was a Meeting at the Lord Chancellor's House in Lincoln's-Fields, of the great Officers of State; at which were present the Marquis of Rockingham, the Duke of Richmond, Mr. Secretary Conway, Lord Egmont, and several others.

His Serene Highness the Prince of Orange is expected in England the latter End of next Month.

It is assured, that the Affair of the Manilla Ransom, at the Departure of Lord Rochford from Madrid, remained in the same unsettled State as it has been in for the three last Years.

Letters from Hamburgh, of the 21st of last Month, mention, that a Convention is nearly concluded between the Court of France and the Republic of Genoa, by which it is agreed, that the former shall assist the latter with 4000 additional Troops, for the Recovery of Corsica.

The Dolphin Man of War is now fitting out at Deptford, and is said to be destined for the same Voyage round the World, and under the Command of her late worthy Commander.

The Reverend Mr. Grief of Griefs! is arrived in Town from his Peregrinations in foreign Parts.

Wednesday last the Earl of Rockford, Ambassador at the Court of Madrid, waited on his Majesty at St. James's, with whom he had the Honour of a long Conference.

The Account of what has happened at Peru sets forth, that the Day of the Revolt at Quito, forty Men in Masks came to the Custom-house belonging to the Indians of Popaian, and plundered the Director's Cash; and that the general Discontent which prevailed in that Country, proceeded from the Troops of St. Martha, Carthagena, and other Places, not having received any Pay for above six Months past.

We hear the Dolphin Man of War, that very lately went round the World, made Use of her Pumps but twice during the Voyage, owing to her having been admirably well sheathed with Copper. It is to be wished this Manner of Sheathing was a general Practice in the East and West-India Trade, as it is a much cheaper Method, and only opposed by the Ship-Builders, who find the other Kind of Sheathing most advantageous.

June 14. Last Saturday his Excellency the Earl of Hertford, Lord Lieutenant of the Kingdom of Ireland, went in the usual State to the House of Peers, and gave the Royal Assent to such Bills as were returned from Great-Britain, and put an End to the present Session of Parliament.

This Day his Excellency the Earl of Hertford is expected to arrive at his House in Grosvenor-street.

It is reported, that the Right Honourable Lord Viscount Barrington, and the Right Honourable Viscount Gage, both of the Kingdom of Ireland, will be created Peers of Great-Britain.

Accounts just received from Newfoundland, make mention, that some New-England and Nova-Scotia Men, allured by the Prospect of immediate Advantage, resorted to trade with the French in great Numbers; by Means of which, several Fishermen from Rochelle and Bourdeaux got loaded in a few Days, and had actually sailed Home with Cargoes of Fish ready cured for the Mediterranean Markets.

They write from Genoa, that by Order of General Paoli, Watch-Towers have been set up in the most conspicuous Part of the Island, under his Subjection; by which the most early Notice can be communicated from one District to another, of the Motions of an Enemy.

We are informed, that the Chief Justice of one of the new Settlements in America, is become greatly popular by his vigorous Opposition to some arbitrary Measures of their Governor; and for which his Health is toasted in all Companies, in the same Manner as it has been the Practice to toast that great Patriot's, Lord Camden's, in England.

We are informed, that one of the Officers belonging to the Honourable Commodore Byron's Squadron, which went out in Search of the new discovered Island in the South Seas, brought a Child of two Years and an Half old from the Shore on board their Ship, when, on measuring him, he was found to be three Feet eight Inches and an Half high.—They afterwards dressed him up in a very gay Manner, particularly with a Gold laced Hat, a Number of Beads and Feathers, with which the Inhabitants seemed highly pleased, and brought Plenty of Fruit, Fowls, &c. the Produce of their Country, which shews they have an innate Principle of Gratitude.

The Voyage lately performed round the World, under the Command of the Honourable Commodore Byron, was kept so secret, that none of the Ship's Company knew any Thing of its Destination, being told no more but to provide themselves with Cloaths proper for a hot Climate. It is pretty remarkable, that none but picked Men went out, and no Boys were allowed. The Officers all agree, that the Cattle of the above Island are extremely fat and fine, but small, and it is imagined, from several Circumstances, that there are valuable Mines in it.

We are told, that the Manner, by which the Honourable Mr. Byron was enabled to distinguish, with some Degree of Precision, the Size of the Giant Patagonius, was by one of the Natives leaving a Gun behind him on the Shore, which scarce reached above his Middle, though it was five Feet high.

We hear his Majesty's Ship the Dolphin will have an additional Complement of Men and Provisions, on going out, for the better prosecuting Discoveries on the Southern Continent. She is also to take on board an Assortment of such Goods as are proper to establish a Correspondence with the Natives, and be furnished with the necessary Apparatus for rendering Sea-water fresh by Distillation.

We are informed, that every Person who shall bring over Blacks into this Kingdom, will be obliged to give Security to the Parish Officers where they land, that they shall not become burthensome to the Parish; and the same Regulation to be observed by every Person where they shall reside. It is computed there are full 60,000 in Great-Britain.

Tables are now become so infamously expensive, and of Course Cooks Men of such Importance, that it is an Employment to which the younger Sons of Gentlemen might think it to their Advantage to be bred. Every Dinner is now a Feast, and every Rendervous a Scene of Extravagance and Vice; which makes it necessary that sumptuary Laws should be thought of for limiting the Expences of those who seem unable to set any Bounds to their own Extravagance, in Order to render Corruption and Rapine less needful than at present.

We are credibly informed, that the Justices of Westminster are determined totally to suppress that inhuman and barbarous Custom of Cock-fighting in Ale-Houses, and to grant no Licences to those Houses where such infamous and cruel Diversions are permitted.

It is now said, that the Reason why a certain great Man was refused the Privilege of nominating Persons to Offices, which he insisted on as the Conditions of his coming into the Ministry, was, lest he should be as blind to the Merits of Scotchmen in disposing of Employments, as the Favourite was to the Merits of the English.

The national Debt, as it stood the 5th Day of January last, being old Christmas-day, amounts to 130,213,902l. 14s. 6d. three Fourths, and the annual Interest, or other Charges payable for the same, is 4,698,656l. 15s. 5d.

Letters from Senegal inform, that the Honourable Colonel O'Hara, Governor of that Place, together with the Troops under his Command, arrived there on the 19th of April last.

An Academy for the Study of Architecture, is establishing at Petersburgh, at the Expence of the Empress of Russia, with large Salaries to the Professors and Students.

It is said, that 12,000 Horses are going to be purchased in this Kingdom for his Prussian Majesty's Service, and that the same Monarch is raising a large Sum of Money.—It is to be hoped we are not also to pay for these Horses. Will Old England never be tired, neither in War nor Peace, with sending her Treasures to the Continent.

We hear from Ledbury in Herefordshire, that there is one Price and his Wife, now living near that Place, whose Ages put together make 216; the Man being 110, and the Woman 106.
